IEW-International Exchange Window for dummies

A school partner finder and an information platform to connect Taiwan and foreign countries' K-12 schools

The K-12 Education Administration (K-12E.A.) of the Ministry of Education in Taiwan established the IEW platform and invited both Taiwan's and foreign countries' K-12 schools registering to our platform since early 2022. We already have invited nearly 1,500 Taiwan's K-12 schools in our side and we hope to invite more foreign K-12 schools to enlarge the quantity of the foreign side.

We believe that through the International Exchange partnerships will ...

Bring international education to your school.

Provide motivation for second language learning.

Inspire reciprocal students through exchange activities, classes and programs.

Focus on SDGs or other variety of themes.

Offer teachers the chance to share teaching experiences and cooperate with their foreign counterparts.

IEW Advantages:

1. Free registration;
2. Automatically matching your school with Taiwan's schools in accordance with your needed conditions.
3. Manual matching if you contact to the person in charge with other conditions.
4. Looking up any Taiwan's K-12 school in our side using the "Find a partner in Taiwan" webpage.
